Prof. Jagadish k Patnaik  
Vice Chancellor  
Nagaland University, Lumami

### KEYNOTE SPEAKER

Prof. Dwipendra Thakuria  
Dean, College of PG Studies in Agricultural Sciences  
(Central Agricultural University - Imphal)  
Umiam, RIBHOI, Meghalaya

**24th**  
Oct, 2025

Venue:  
Jubilee Memorial College,  
Aongza Ward, Mokokchung, Nagaland

## ABOUT JUBILEE MEMORIAL COLLEGE, MOKOKCHUNG

Jubilee Memorial College (JMC), Mokokchung, Nagaland, established in 2015, is a growing institution of higher education dedicated to academic excellence and holistic development. The college offers undergraduate programs with emphasis on Humanities and Social Sciences, nurturing critical thinking and research culture among students. The Department of Economics is particularly active, organizing seminars, workshops, and research initiatives on regional and national issues.

Located in Mokokchung, Nagaland, the cultural hub of the Ao Naga community, JMC has become a vital center of learning and community engagement, committed to producing responsible citizens and future leaders.

## ABOUT THE SEMINAR

Agroforestry, as a land-use system integrating trees with crops and/or livestock, has emerged as a vital strategy for ensuring sustainable agricultural development. It not only enhances farm productivity but also contributes to soil fertility, water management, biodiversity conservation, and carbon sequestration. In the context of developing economies like India, where rural livelihoods are heavily dependent on agriculture, agroforestry provides opportunities for income diversification, poverty reduction, and resilience against climate change. Despite its benefits, the economics of agroforestry remain underexplored, particularly in terms of value chains, market linkages, and long-term economic returns. Understanding the economic viability, constraints, and opportunities of agroforestry is essential for designing policies and interventions that promote equitable and sustainable agricultural development.

This seminar aims to provide a platform for scholars, practitioners, policymakers, and farmers to deliberate on the challenges and opportunities of agroforestry from an economic perspective. By examining aspects such as cropping patterns, agribusiness potentials, soil and water management, climate change adaptation, and employment generation, the discussion seeks to highlight actionable pathways for strengthening rural economies while safeguarding environmental sustainability.

## CALL FOR PAPERS

This seminar invites original research papers, book reviews and discussion papers focusing on the seminar's core theme or related sub-themes.

## SUB-THEMES

- Cropping pattern and crop diversification.
- Agribusiness potentials and value additions.
- Agricultural production, productivity, and marketing.
- Land/soil and water management.
- Agroforestry, rural livelihood, poverty and food security.
- Agriculture, environment, climate change and sustainable development.
- Incorporating agroforestry approaches into economic value chains.
- Agroforestry modeling and economic benefits.
- Assessing economic impacts of agroforestry.
- Rural employment opportunities and economic development.
- Environmental economics of agroforestry (carbon sequestration, soil conservation, biodiversity).

## FORMAT FOR THE SUBMISSION OF PAPERS

Abstract: 250-300 words

Full Paper: 3,000-4,000 words | Spacing : 1.15

Font : Times New Roman | Size : 12pt

Citation Style : APA 7th style | Format : MS word

Submission Email: [jmcseminar2025@gmail.com](mailto:jmcseminar2025@gmail.com)

## PUBLICATION OPPORTUNITY

Selected papers will be published through reputed publishers with ISBN.
